Sheet1

Current Time	Week 1 (before to 11/01/2018)	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	22/03/2018 – 23/04/2018
Task												
Literature Review												
Find a minimum of 10 relevant papers												
Thoroughly review all relevant papers												
Write up first draft Methodology/Review Section of report												
Finalize Review section of report												
Design												
Design Method for vectorizing midi files												
Design Block Diagram for GAN system												
Design Write up												
Implementation												
Implement GAN training on MNIST dataset												
Implement RNN tutorial on language recognition												
Implement Script to vectorize midi files												
Implement "Toy project" using RNN to attempt to classify												
Implement Final Network for project												
Implementation Write up												
Experimentation												
Parameter tuning experimentation												
Experimentation Write up												
Other												
Write report introduction												
Write report conclusion												
Write report abstract												
Report editing
